Message from the Principal

Education is the manifestation of divine perfection in human life. Sir Syed Ahmed Khan, the greatest visionary, philanthropist and reformer, who has taken the initiative for the betterment of education to the social and educational backward classes of India aiding the growth of nation. Sir Syed Institute for Technical Studies (SSITS) was established in 2002 in the name of Sir Syed Ahmed Khan and is doing justice to Sir Syed's vision.

SSITS with its highest number of students is one among the self-financing colleges under Kannur University, which has an amalgamation of competent teachers, state-of-art infrastructure, efficient and experienced management (CDMEA) and safe and supportive environment for its students to provide a perfect balance. The campus is secular in nature and the authority is always vigilant against ragging and drugs. We accord prime importance to the behavioural discipline, moral integrity and cognitive development of our students. We encourage the students in doing research work and writing articles in the ISBN approved college journal, developing talents in arts, sports and self-development besides achieving top score in the University exams.

SSITS is preparing for NAAC accreditation for which College Internal Quality Assurance Cell (IQAC) is working very hard with the support of management, parents, staff and students. I request the support from each and every one to achieve the highest position in this. I wish the best of peace, prosperity and fortune to all.

The background of the entire page is a collage of numerous clocks. In the upper half, there are several large, ornate wooden grandfather clocks with white faces and black numerals. Below these, the lower half of the page is filled with a dense, overlapping collection of many smaller, diverse clocks. These include round alarm clocks in various colors (red, green, blue, gold), square analog clocks, and small round pocket watches. The clocks have different face designs, some with simple black numerals, others with colorful patterns or illustrations. The overall effect is a visual representation of the passage of time and the variety of ways we measure it.
