

- **Event:** Drive into the Latest Web Technologies and Job Opportunities
- **Date:** February 15th, 2024
- **Organizer:** Department of Computer Science

#### Key Figures:

1. **Inaugurator:** Team Kiwisoft
2. **Presidential Address:** Mrs. Khadeeja K T, HoD Department of Computer Science

#### Highlights:

- The event aimed to provide insights into the latest developments in web technologies and the corresponding job opportunities.
- Team Kiwisoft, likely experts or professionals in web technologies, inaugurated the program, signifying their expertise and involvement in the subject matter.
- Mrs. Khadeeja K T, as the Head of the Department of Computer Science, delivered the presidential address, setting the context and importance of the program.
- The program likely included presentations, discussions, or workshops covering various aspects of the latest web technologies such as frontend frameworks, backend development, responsive design, web security, and emerging trends like progressive web apps (PWAs), serverless architecture, etc.
- Additionally, there may have been sessions focusing on job opportunities in the field, including insights into the skills and qualifications in demand, recruitment processes, career paths, and tips for career advancement.
- Attendees would have had the opportunity to interact with industry experts, gain practical knowledge, and explore potential career prospects in the field of web development.
- The event served as a platform for networking, knowledge sharing, and career guidance, enabling participants to stay updated with the rapidly evolving landscape of web technologies and make informed decisions regarding their careers.

Overall, the program aimed to bridge the gap between academia and industry, empowering participants with the knowledge and skills required to excel in the dynamic field of web
