

- **Event:** Seminar on "Software Development and its Trends"
- **Date:** September 21st, 2023
- **Time:** 11:30 AM
- **Venue:** [Specify the venue if available]

Key Details:

- **Organizer:** TECHKNOCK, Department of Computer Science
- **Topic:** Software Development and its Trends
- **Resource Persons:** Mr. Aswin & Mr. Roshin P
- **Duration:** Approximately 1 hour

Highlights:

- The seminar aimed to educate undergraduate (UG) students about the latest trends in software development.
- Mr. Aswin and Mr. Roshin P, likely experts in the field, were the resource persons for the seminar.
- They delivered a detailed presentation covering various aspects of software development, including emerging technologies, methodologies, tools, and best practices.
- The session provided valuable insights into the evolving landscape of software development, equipping students with up-to-date knowledge and skills required in the industry.
- The seminar was well-received by the UG students, who found the session to be highly informative and beneficial for their academic and professional growth.
- Attendees had the opportunity to engage with the resource persons, ask questions, and clarify doubts, enhancing their understanding of the subject matter.

Overall, the seminar served as a platform for students to gain insights into contemporary software development trends, empowering them to stay abreast of industry advancements and excel in their careers in the field of computer science.
